

## NEWS RELEASE

### Meredith Ostrander – A winner all the way!

Phancorp Customer Relations “team-mate” brings home NWHL Cup

**Brampton, ON, May 3, 2007 – Phancorp Inc. congratulates Meredith Ostrander and the entire Brampton Thunder on taking the NWHL Championship for 2006/7. The semi-pro National Women’s Hockey League team scooped the Cup recently with a 4 -0 shutout victory over the Montreal Axion.**

Ostrander has also been a part of the Phancorp customer service team since 2005.

We’re thrilled,” says Isabel Alexander, Phancorp Inc. Founder and President. “Everyone at Phancorp has been cheering from the sidelines all season. We knew the Thunder could do it. With someone like Meredith on their team, how could they miss?”

Ostrander, known as the “Big O”, has been a member of the Brampton Thunder NWHL hockey team since 2002, with a high ranking on the team in both hits and penalty minutes. A highly versatile player, both at Phancorp and for the Thunder, she has played centre, wing and defence as needed.

Great coaching led the way, but it was working together that brought the Championship Cup home. Thunder Head Coach Donna Lynn Rosa said, “‘The Team’ was the difference this time around, because it truly was a Championship Team.”

Ostrander played for four years on the Brown University, Rhode Island, Ivy League Women’s hockey team, while majoring in anthropology. Her hockey achievements include: being named to the Eastern Collegiate Athletic Conference (ECAC) All Tournament Team 2002, National Collegiate Athletic Conference (NCAA) Frozen Four 2002 All Tournament Team, MVP of Brown University Women's Hockey team 2002.

The Brampton Thunder was a significant contributor to the roster of the Canadian national women's hockey team at the 2006 Winter Olympics, with three players contributing to Canada's gold medal win and one playing for the bronze medal-winning American national women's hockey team.

They also won the Esso Women's National Championships in 2006. The Thunder also has the distinction of having their home arena serve as the site of all NWHL Championship.

“As a semi-professional National Women’s league hockey player I know the importance of team work and of passion, speed and accuracy in striving for goals. I’m on Phancorp’s team to give chemical distributors the best customer service possible to help them reach their goals,” Ostrander says.
